Specialist Services

Direct mail & e-mail list rental

As one of the fastest growing publishers in the Architectural and Building sector TSP Media now offer a range of services in both print and online.

Our online platform has been transformed during the last 12 months with the launch of The Building Product Library which went live on 7th December 2009 and our highly successful weekly product bulletin buildingspecification.com.

Every magazine and product card pack are also supported with a digital turnpage issue which have been further enhanced with a new card format that will go live from January 2010.

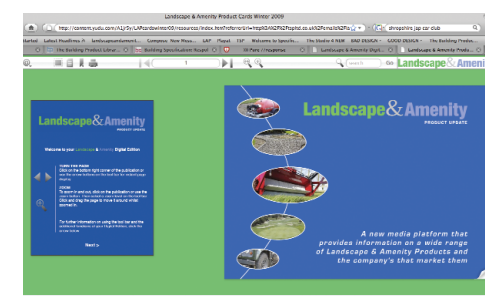

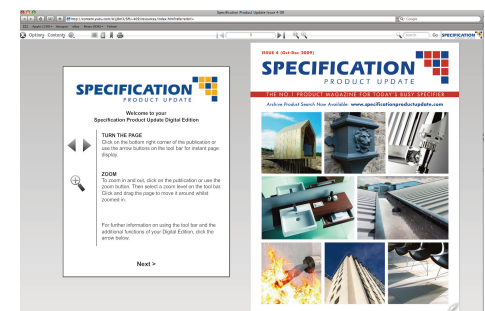

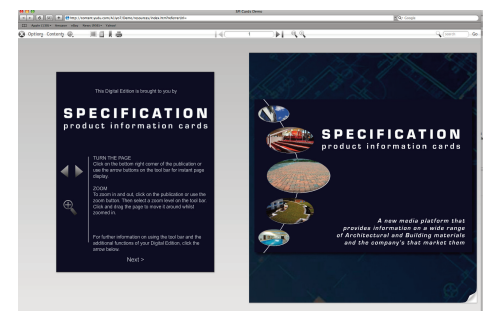

In November 2009 we also launched a product specific monthly digital issue of Specification Product update that will feature a different product area in each issue . In November we featured External Works and a link to this online product can be found along with our feature programme for 2010 at www.externalworksupupdate.co.uk.

To support our publishing platform we have developed a specialist online services division which can advise and help with website development, ebuletin, eflyer and newsletter creation.

We can also help with Search Engine optimisation, offer a web critique of your existing facilities and advise and help with pay per click online advertising opportunities via Google and Facebook.

Finally if your looking at direct mail via post or email and would like to receive a quote for list rental for addresses and or email addresses with respective demographics attached please contact Becky Everitt on 01952 234000.

Contact Us

www.buildinglibrary.co.uk

Take advantage of our launch offer and save up to 60% off the rate card cost of placing your company product brochures onto The Building Product Library.

The Building Product Library is a new and unique online database of manufacturer's product brochures, that is designed to provide the Architect, Contractor & Specifier with immediate access to a wealth of product and company information at the click of a button.

Specifiers looking for information on a complete range of building materials, products, services and ideas can view brochures online, download a pdf to their desktop or request literature in print all from one single source website.

The site uses the industry standard Uniclass classification system to categorise information into it's relevant product sector. Broken down into six subsections the building product library will as it grows offer the most comprehensive classification of construction product brochures in the market.

At the launch of The Building Product Library on 7th December 2009 the system had pre registered over 32,000 specifiers drawn from our existing TSPMedia* database and live working specifiers from the Glenigan sales lead system.

Once registered, users of the site have complete access to all the information held on the system and importantly allow The Building Product Library to supply you with a regular feed of data on who is reading, down loading or requesting your brochures in print.

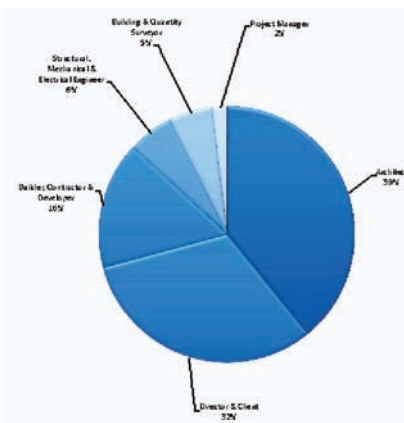

To pre-register your brochure for our December 7th launch please click here or phone a member of our online sales team for further information.

Circulation

The circulation of the Building Product Library is determined by the amount of registered users at any point in its lifetime. At launch date the site had over 32,000 registered specifiers, a figure we expect to increase as the site becomes more recognised within the construction industry, as a point of reference for brochure information.

Job Title	Amount
Architect	12629
Director & Client	10244
Builder, Contractor & Developer	5181
Structural, Mechanical & Electrical Engineer	1868
Building & Quantity Surveyor	1772
Project Manager	613
Total Contacts	32307

Brochure Rates

It costs just £100.00 to place your product literature onto the The Building Product Library. The cost covers twelve months exposure or 100 enquiries which ever comes first. There are further discounts detailed below if you wish to place multiple brochures onto the site. Company's that book 13 or more brochures onto the system will automatically receive a unique company profile where all of their literature can be featured.

If an item of literature attracts 100 enquiries within a 12 month period then you will be invited to start a new contract for a further 12 months or 100 enquiries with that brochure or have the option to remove it from the site. Existing brochures can be updated during the contract period at no extra cost.

Special Launch Rate Card (Per brochure)

1 - 6 insertions	£ 100.00
7- 12 insertions	£ 75.00
13 + insertions	£ 50.00

Normal Rate Card (Per brochure)

1 - 6 insertions	£ 250.00
7- 12 insertions	£ 150.00
13 + insertions	£ 100.00

Company Profile

Free on all bookings of 13 or more brochure - includes company description up to 50 words, address and email contact details.

On the 1st September 2009 TSP Media launched an exciting new product specific weekly E-bulletin www.buildingspecification.com. Designed to update specifiers within the construction industry with product news and project development on a week by week basis, the site has proved to be extremely popular with excellent page view rates and many advertisers experiencing over 100 click thru's to their websites.

Each Weekly E-Bulletin is limited to just seven companies on a single topic, and these are on a first come first serve basis. Each E-bulletin listing will include:

- A Picture & logo
- Approx 200 words (product specific) text
- Link to company website (either direct to the product page or main site)
- Email link direct to an address of your choice

Your entry will be archived for 12 months from the date the E-bulletin is emailed to the database, and can be viewed and searched via the product category on the home page.

Each week there is also an opportunity to purchase the main skyscraper and a button on the e bulletin which remain live for one week.

Weekly Feature Programme 2010

14/12/10	Paints, Stains & Finishes

Banners and Buttons can also be purchased on the Building Specification website as well as company profile pages, giving an in depth look at a companies products.

Circulation Analysis

Building Specification currently has a requested circulation of 11634 architects, contractors and specifiers from across the construction industry. Each week we top this circulation up with live working contacts from the Glenigan projects database. We only search for key specifiers that are working on projects where the weekly product subject is mentioned in the project text.

The circulation is then further topped up from the TSP Media database with all readers who have made an enquiry to the products that are being featured in the week in question during the previous 18 months.

Specification

MAGAZINE

Specification Magazine is now supported by a host of online and digital services. Our website www.specificationmagazine.com which is being relaunched in January 2010 features a host of platforms including an interactive Blog hosted by reputable Architectural Journalist Ruth Slavid, webinars, a fully searchable product directory, plus links to our full media portfolio.

There are also links to our exciting new brochure service www.thebuildingproductlibrary.co.uk and our weekly product bulletin www.buildingspecification.com.

We also reproduce each issue of Specification Magazine in digital format and this is sent via email to over 14,000 individuals. In digital format our issues are enhanced with search, zoom, bookmarks and links direct to our online enquiry service. This enables Specifiers to enquire about your product without leaving the website.

All content from Specification Magazine is uploaded to Specification Magazine.com with a standard bronze entry which can be further enhanced with via silver, gold, and platinum entries.

Now available in print, digital and online formats.

SPECIFICATION

product information cards

(Formerly Project Management for Building Cards)

Available in print and online

Specification Product Information Cards are now available in print, and online in a turn card digital format.

Product cards have for many years been recognised as one of the best enquiry generators on the market and still continue to drive quality sales leads to our advertisers. The dawn of digital media has enabled publishers to further enhance their product card offer and cater for the growing demand from the market to provide this media platform in a more environmentally friendly and immediate format. Specification Product Information Cards are no exception and their dual format is unique in that their circulation offer is specifically targeted at working specifiers (Source Glenigan). Another unique feature of the digital issue is the double card spread format that allows you to advertise your message on one half of the spread and feature details about you business on the other.

Landscape & Amenity

PRODUCT UPDATE

Landscape & Amenity Product Update is continually supported by a daily updated website - www.landscapeandamenity.com

Each day our editorial team update our news section with current news & announcements across the landscape, groundcare and amenity sectors.

The online viewer has access to an extensive product news directory, coupled with video footage demonstrations and product photography slide-shows. Alongside is an option to view our interactive Landscape & Amenity Product Card pack, with each product card acting as a hyperlink to the home page of the advertiser. Added benefit can be found from a detailed 2010 Events Guide allowing the online viewer to choose several exhibitions to attend across the UK & Europe.

Home Page

TYPE	SIZE	ARTWORK TYPE	HOME PAGE PRICE	CATEGORY SPONSORSHIP
Banner	468 x 60 pixels	GIF, JPEG, SWF (Flash), HTML	£250 (1 month)	£125 (1 month)
Skyscraper	120 x 600 pixels	GIF, JPEG, SWF (Flash), HTML	£300 (1 month)	£150 (1 month)
Button	140 x 140 pixels	GIF, JPEG	£100 (1 month)	£50 (1 month)

Banner & Button

PRODUCT NEWS LISTINGS

Our online Product News editorial section enable the viewer to gain immediate access to detailed products news. Your company has the opportunity to sponsor a product news section in relation to your products for as little as £250.00 for 12 months. Sponsorship of a section includes approximately 10 minutes of video footage, or 8/10 product photographs in a photography slide-show format. Corporate branding, full contact details including email & web link facilities coupled with 250 words about your company are also included in the above cost.

LANDSCAPE & AMENITY PRODUCT EBULLETIN

Direct to the desktop! Each month, we keep our online viewers up to date with the very latest product news & announcements with the Landscape & Amenity Product eBulletin service direct to their desktop.

Product News Sponsor

8655 registered email addresses from the ABC Audited magazine Circulation are kept informed of breaking news, product tests, exhibitions & events, product launches and legislation changes. Once received, the online viewer will read each article on our website and then apply for product information via our 24/7 viewer enquiry service, or hyperlink direct to the home page of the company mentioned in the article.

Product eBulletin

The news story is then added to www.landscapeandamenity.com, with product enquiry services still operative via the online enquiry service. There are between 5-8 news stories per eBulletin, and are available for only £135.00

SPECIFICATION
PRODUCT UPDATE

Available in Print & Online in a turn page digital format

In today's multi media environment Architects, Contractors & Specifiers need a quick and easy reference point for products, services and new ideas. Specification Product Update now offers that and much more with the addition of it's new digital edition in which all advertisers in the print issue are now included.

Every product or project insertion is also included as a bronze entry into Specification Magazine's website

Circulation

Specification Product Update's circulation is constructed from three distinctive aspects of the Tanner Stiles Publishing (TSP) database. Published quarterly, the magazine's circulation consists of the following:

- Individually Requested readers from Specification Product Update's sister title, Specification Magazine.
- All enquirers with a specifying influence that have enquired through other building related magazines and online directories within the TSP group in a 12 month period.
- Architects & other key specifiers who are currently working on live new build and refurbishment projects (Source emap glenigan).
- Specification Product Update's circulation has increased by over 30% in the last 12 months thanks to it's new new digital turn page version which is now requested in this format by over 5200 specifiers.

SPECIFICATION

PRODUCT UPDATE

Digital

In November 2009 we launched a digital turn page product specific ebook. Each issue concentrates on a different subject and commenced in November with:

External Works	November 09
Roofing & Cladding	December 09
Floor & Wall Finishes	January 10
Insulation	February 10
Doors & Windows	March 10
Drainage	April 10
External Works	May 10
Roofing & Cladding	June 10
Floor & Wall Finishes	July 10
Insulation	August 10
Doors & Windows	Sept 10
Drainage	Oct 10

The Architectural and Building ebook is mailed to a combined circulation of 22,000 email addresses. The email database is compiled from email data from the existing TSP media database which comprises of Architects, Contractors, Developers and other specifying influences in both the public and private sector who have either requested to receive information from us in a digital format or who have made an enquiry in the last 18 months to a related product. We then add every named specifier working on a live project whose email details are available from the Glenigan sales lead source and have been identified as working on a project where the products featured will be specified.

Whether you want to bring your website in line with new branding, need to promote your current website in new ways or simply get started online we have the experience and tools to help.

Some example solutions are detailed below:

Basic Website

If you are looking for a rebrand of your existing website or even just thinking about starting a new website then may be the option for you. Sunsquare required this solution and we refreshed their branding and presence online with a new website launched in just over a month.

Typical Cost: £500 redesign cost + £75 per page

Custom Built Website

For a more advanced website we can custom build a solution including shopping carts, content management systems and online databases. For Steelway alongside a 100 page website we also created a search and product selector so users could find the content they wanted in many different ways.

Typical Cost: £2500

Flash Animation

From a simple rotation of images to complicated product diagrams we can use flash animation to enhance your website or online media. Possum tasked TSP Media with launching a new website on Electronic Assistive Technology, and to give the home page impact we created an animation of their products and key brand messages.

Typical Cost: £350

All costs are dependent on requirement and will be quoted on a client by client basis.

Visit Website

Enquire

Contact Us

Alongside traditional Direct Mail, email promotion is a cost effective way of reaching a large target market with a simple message.

Our print publication and online subscriptions give us access to a universe of over 60,000 email addresses with 3rd part permissions for email contact.

Through this list we can build a list of contacts based on job title, demographic area or one of the circulations from our magazines. Then we will create a branded email on your company or product with the imagery and text you provide.

A few examples of the way this email can be used are:

Promote a new website

Launch a new product to market

Send out literature (in pdf or digital format)

Collect feedback from customers through a form

Once the email has been sent our tracking service lets you see how many people read the email, and the links they clicked throughout.

Typical E-bulletin rates

An ebulletin can be designed for as little as £295 and costs for list rental can be discussed with our sales team on 01952 234000.

With our help and your design
Together, we can change peoples lives

helping independence emerge

Introducing Electronic Assistive Technology

Electronic Assistive Technology (EAT) empowers and enables people with a disability to undertake many of the day to day tasks that we take for granted.

Opening and closing doors, windows and curtains, operating lighting and electronic equipment can all be made possible when EAT is incorporated into a building's design.

Possum, who recently achieved the Queen's award for innovation, have nearly 50 years experience of EAT and lead the field in the design, supply, development and installation of EAT equipment. Possum work closely with architects and building contractors on large scale new build and major refurbishment projects, providing practical advice on the installation of EAT in care homes, schools, halls of residence within specialist colleges and hospitals.

You can find more information about EAT on our new website www.electronicassistivetechology.co.uk or phone 01296 461000 to speak to a technical representative or request a copy of our architectural brochure.

Possum Ltd
8 Farnborough Close, Stocklake Park Industrial Estate Aylesbury, Bucks HP20 1DQ T 01296 461000 F 0871 666 3520 E sales@possum.co.uk
