EASY TO READ FORMAT IN PRINT

In today's multi media environment Architects, Contractors & Specifiers need a quick and easy reference point for products, services and new ideas. Specification Product Update's new design now offers that and much, much more. The fresh new layout has been designed to incorporate a wealth of product information in editorial, advertorial and advertisement formats. Each section is sign posted for ease of use to enable Architects, Contractors and Specifiers to quickly and easily assimilate information on the particular products of interest.

EASY TO USE FORMAT ONLINE

Supporting the new design is an exciting turn page digital issue to support the growing demand for the presentation of media information in this format. The digital issue of Specification Product Update will also incorporate flash, video and links not only to customer websites but also our own in house websites where a further range of product information and directory services is available.

HIGH VOLUME QUALITY SALES LEADS

Since its launch in 1993 Specification Product Update has consistently generated top quality sales leads for its advertisers. Over 80% of our advertisers re-book again with us year after year, testament to the quality of leads that we continue to generate. Our new project response analysis backs this up by offering a match up service that can show you the actual projects that enquirers to you products are actually working on.

NEW LOOK TABLOID MAGAZINE

Our new dedicated editorial section offers a choice of coverage

ADVERTISEMENT PRODUCT PANELS

ANCON BUILDING PRODUCTS
ANCON TEPLATIE,
LOW THERMAL CONDUCTIVITY WALL TIE

ANCON has launched a range of low thermal conductivity wall ties. These ties minimise heat loss through thermal bridging, improving the energy efficiency of a masonry cavity wall. In addition to a number of stainless steel wire wall ties, the range includes the Ancon TeplaTie, manufactured from basalt fibres. This BBA-approved product is available exclusively from Ancon. It has a thermal conductivity of just 0.7W/mK, making it the most thermally efficient wall tie on the market. For more information, please visit www.ancon.co.uk/LowConductor.

Our new Literature section features manufacturers brochures linked to our new online web listing www.thebuildingproductlibrary.co.uk

CIRCULATION

Published six times per annum Specification Product Update's circulation is constructed from three key aspects of the TSP Media database.

- Individually Requested readers from Specification Product Update's sister title Specification Magazine who have also requested to receive Specification Product Update
- All enquirers with a specifying influence that have enquired through other building related magazines and online directories within the TSP Media group in a 12 month period.
- Architects & other key specifiers who are currently working on live new build and refurbishment projects (source Glenigan).
